

Hub v.2.0

In this section you can find the guides to build the d-diot hub in its version 2.0.

Changelog:

- d-diot board 2.0 which is mechanical compatible with a Raspberry pi 4 and backward compatible to the other versions of the Pi
- The position of some components on the d-diot board v.2.0 (led and oled display) has been changed to facilitate the development of the 3 printable case

Visit the [dedicated topic in the forum](#) if you have to ask a question.

- [Required Hardware](#)
- [Assembly the board](#)
- [System configuration](#)
